Track Your Energy Usage with Sawnee EMC

Sawnee EMC offers an easy way for you to track your energy consumption through our App or online through SmartHub, available at sawnee.coop. By keeping an eye on your electric energy usage, you can manage your energy habits and avoid unexpected high bills.

How to Track Your Usage

To track your energy usage, simply log into SmartHub, either online or through the App. Once logged in, you can view detailed information about your energy consumption, including:

- **Daily and Hourly Usage:** See how much energy you're using and compare this data over different periods (daily, monthly, or annually).
- **No Bill Surprises:** Identify changes in your unbilled energy use which is particularly helpful as you move through a billing cycle. You will know how much electricity you are using "before" your next billing statement arrives.

Being able to track your Sawnee EMC energy usage allows you to make adjustments "before" you receive your next billing statement. By identifying patterns and areas where you can reduce your energy consumption, you can save money.

For questions regarding your usage, the Energy Services Team at Sawnee EMC is here to help. Contact us at 770-887-2363 or via email at marketing@sawnee.coop.
